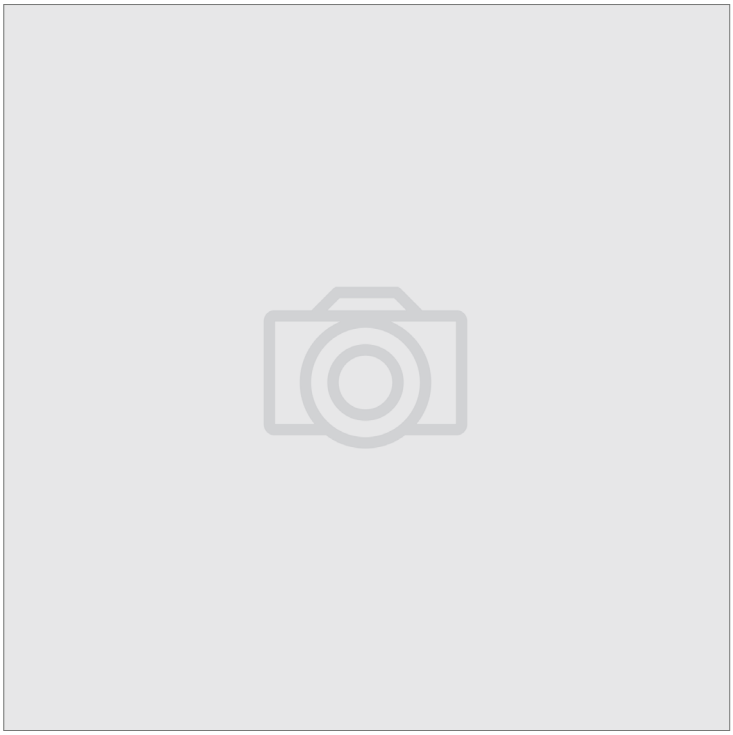
RLXMMK9

ProSoft Wireless Bracket Omnidirectional Mast Mount for 900MHz 2dBi to 7dBi Antenna



Component type	
Range	Wireless Hotspot
Model	N/A
Product status	Existing

Providing a secure wireless solution for plant-floor, SCADA automation, process control systems and mobile worker Wi-Fi infrastructure, the ProSoft Technology Fast Industrial Hotspot (RLX2-IHNF) is the ideal choice for indoor and outdoor safety applications. Operating in the 2.4 or 5 GHz bands, including DFS channels, the radio provides robust communications in harsh environments.
