Spectrum Controls Micro850 Expansion Module 16 High Density AI Current

Component type	Fieldbus, decentr. periphery - analogue/digital I/O module
Range	Spectrum Module
Model	N/A
Product status	Existing

Spectrum Controls modules are designed to provide modular and expandable solutions for control systems. They offer a wide range of modules that can be easily integrated into existing systems, allowing for flexible configuration and expansion. Enabling customers to customize their control systems based on their specific requirements and easily add or remove modules as their needs evolve.
