JDFT050

GMI Intrinsically Safe Barriers GMI D5000 22mm Bus Connector 1 Required for each Module

ELECTRICAL ENGINEERING PRODUCTS

Component type	Accessories/spare parts for low-voltage switch technology
Range	D Series
Model	N/A
Alternative	CALL FOR ALTERNATIVE

GM International's Intrinsically Safe Isolators provide energy limitations to protect from explosion risks while guarantying continuous operation and effectiveness of the safety layer. A wide range of intrinsically safe galvanic isolators compliant with IEC61508 and IEC61511 standards, these isolators represent a milestone in the level safety through the entire instrumented system lifecycle.

CONSTRUCTION

Accessory	Yes
Type of accessory/spare part	Connector
