5034AENTR

Allen-Bradley PointMax Ethernet to RJ45 Adaptor Up to 32 I/O Modules

IN CABINET DISTRIBUTED IO

Component type	Fieldbus, decentr. periphery - analogue/digital I/O module
Range	PointMax
Model	N/A
Product status	Existing

The PointMax™ I/O platform enables you to adapt to modern industrial needs. It offers an extensive range of standard, safety, and specialty I/O modules and supports multiple network architectures and topology options. This remote I/O solution is ideal for discrete, hybrid, and process applications in multiple industries.

ELECTRICAL	Type of voltage (input voltage)	DC
COMMUNICATION	Number of HW-interfaces industrial Ethernet	2
	Supporting protocol for TCP/IP	Yes
CONSTRUCTION	Suitable for safety functions	No
	IP rating	IP20
	Rail mounting possible	Yes
