Allen-Bradley Kinetix 5700 Single Axis Module 65A

Allen-Bradley

by ROCKWELL AUTOMATION

SERVO DRIVES

Component type	
Range	Kinetix 5700
Model	N/A
Product status	Existing

The Allen-Bradley Kinetix 5700 Multi-axis EtherNet/IP Servo Drives are ideal for application with high axis-counts and high power requirements. Designed with integrated motion on EtherNet/IP networks for large machine applications while reducing commissioning time and improving machine performance and safety.
