

MVI69ADMNET

ProSoft CompactLogix InRack C Application Development
Module 1 x EtherNet 2 x RS232 422 485

Component type	PLC communication module
Range	CompactLogix InRack Comms
Model	N/A
Alternative	NO ALTERNATIVE ITEM

The ProSoft CompactLogix InRack Communication Module allows for easy and secure connection between devices within a single rack or chassis. It expands the capabilities of the CompactLogix system, improving operation performance and providing flexible connectivity options via various communication protocols, including Modbus TCP, Modbus Serial, Profibus and Linux development module.
