Allen-Bradley Micro800 Programming Cable USB Type A/B Male to Male

MICRO CONTROL SYSTEMS

Allen-Bradley

Component type	
Range	Micro 800
Model	870
Product status	Existing

Allen-Bradley Micro800 controllers offer both a scalable and robust micro control solution for small to large standalone applications and allow for customisation and flexibility. You can elect from a wide range of plug-in modules to match your requirements and make use of Connected Components Workbench™ software to help reduce machine design time and maximise productivity.
