Allen-Bradley 440G-MZ Guardlock Switch Power to Release Unique Actuator 5Pin Escape Release

GUARD INTEROCKING

Component type	Position switch with guard locking
Range	440G-MZ
Model	N/A
Product status	Existing

The Allen-Bradley 440G-MZ Guard Locking Switch protects personnel allowing full-body access to the safeguard area. Ideal for use with various guard doors and where high holding force, wide tolerance to guard misalignment, and an escape release option are commonly required.
