Allen-Bradley PointMax Potential Termination Module

IN CABINET DISTRIBUTED IO

Allen-Bradley

Component type	Fieldbus, decentr. periphery - analogue/digital I/O module
Range	PointMax
Model	N/A
Product status	Existing

The PointMax™ I/O platform enables you to adapt to modern industrial needs. It offers an extensive range of standard, safety, and specialty I/O modules and supports multiple network architectures and topology options. This remote I/O solution is ideal for discrete, hybrid, and process applications in multiple industries.

CONSTRUCTION

Suitable for safety functions	No
IP rating	IP20
